VI. REGISTRATION PROCEDURE 28

COURSES WITH *SOLERA*

The Malaga University Cursos de Español para Extranjeros (CEE-UMA) combines, from its very beginning in 1947, teaching expertise with the highest standards in administrative performance. Both factors have made possible the development in our Center of a wide variety of courses and programmes that meet the diverse and growing demands of the Spanish language learners.

As an active participant in the internationalization process our time demands, as stated in the Malaga University Strategic Plans, the CEE-UMA has been entrusted with the task of achieving the highest standards in the teaching of Spanish as a second language. We operate with applied philological standards, in order to provide educational services to students who express —in a common language— the richness of their multicultural experience.

In this exciting job, those who are part of the CEE-UMA work everyday with students and universities, private companies and national and international institutions, to shape the functions of one of the most important internationalization tools at present: Spanish Language, mother tongue and second language for hundreds of millions of people worldwide. Spanish for a global world: this is the aim of our work.

Málaga offers special conditions for achieving this goal. In Málaga becomes a reality what in so many other places remains an enlightened dream. Coming from a rich mixture of ancient and wise cultures who found here a sober sea and warm light, Malaga society today integrates people from many countries and languages. In this melting pot of plural citizenry, Spanish is *koiné* or common language: a Spanish that, in its southern variety —linked as no other with those of Latin America—, has in Málaga tones of many other verbal melodies.

In such context, the CEE-UMA combines the tradition or *solera* of its experience with the sparkle or *salero* of our versatile and multifunctional Spanish. This is the way we are and the way we warmly welcome those who come to share with us their lives and their voices: devoted to fertile speech, guarantee of understanding.

Gaspar Garrote
Headmaster
